TDWI Chapters: Silicon Valley

The purpose of the Silicon Valley Chapter of The Data Warehousing Institute (TDWI) is to enable local BI/DW professionals to:

- Meet regularly with each other on a regional basis
- Share best practices in a small group setting
- Establish a strong network of peers
- Gain technical advice and career direction

Everyone is welcome. We encourage you to become a member but you do not need to be a TDWI Member to attend.

You may browse previous events using the page buttons at the bottom of the page.

Come meet other local professionals, swap business cards, share ideas, and exchange career advice while listening to quality presentations in a vendor-neutral setting, which is the hallmark of TDWI education. See our meeting agenda below. Online Pre-Registration is **requested**.
