[Awesome \(0\)](#) [Interesting \(0\)](#) [Useful \(0\)](#)

Returns the sample standard deviation of an expression

STDDEV([DISTINCT | ALL] <expression>) OVER (<analytic_clause>)

```
conn oe/oe
```

```
col stddev format 99999.999
```

```
SELECT last_name, salary,  
STDDEV(salary) OVER (ORDER BY hire_date) "StdDev"  
FROM employees  
WHERE department_id = 30;
```
