Importing atl file into repository using script.

RepoServerName=\$1

RepoDatabaseName=\$2

DatabaseType=\$3

RepoUserName=\$4

RepoPassword=\$5

ATLFileName=\$6

```
al_engine -S$RepoServerName -Q$RepoDatabaseName -N$DatabaseType -U$RepoUserName  
-P$RepoPassword -f$ATLFileName
```

ex:-

```
al_engine -S ORADB11 -Q ORACLE -N ORACLE -U BODI_REP -P BODI_REP -F EXPORT.ATL
```
